Team Name: KCNS^2

Project Name:

Project Idea: A website where women from different schools can come together and make friends and study together.

Why: Women are often times excluded in conversations relating to technology, and often times there are very few women in these spaces especially classrooms, to begin with. This website will provide students with a place to come together and be heard, as well as find other women in stem to study with based on similar coursework.

Who will this impact: Women who are pursuing STEM education

Pages:
- Home Page
- Profile Page
- Chat Page
- Community Page (niche pages off course)
- Registration/Sign Up Page
    - Option to choose student or mentor (will be displayed on profile)
